

Request for Proposal and Logic Model Workshop

Request for Proposal & Logic Model Workshops

RFP

United Way of Acadiana is pleased to announce the release of its 2011 Request for Proposals (RFP) for programs that address the following issues: helping children enter school ready to learn and graduate from high school on time, helping families and individuals become financially stable and helping people meet their basic needs within United Way of Acadiana’s service area of Acadia, Lafayette, St. Martin and Vermilion parishes. Two-hour workshops are being held to give an overview of the RFP and provide instructions for completing the required logic model.

Logic Model

A logic model is a requirement for the RFP. A logic model is a depiction of a program showing what the program will do and accomplish. A series of “if-then” relationships that, if implemented as intended, will lead to the desired outcome. A well developed logic model is the core of program planning and evaluation. The Logic Model uses the principles of reasoning, reasonableness, and the relationship of the elements to each other as a whole to establish the intended outcome.

Cost: This workshop is provided at NO COST.

Registration

Priority seating is given to pre-registered participants. Please RSVP by July 14, 2010 to Anthony James, United Way of Acadiana at (377) 706-1220; seating is limited!
